

## INNOVATIONS IN VIDEO

There are a lot of videographers and/or production companies that claim to be cutting edge. What makes them cutting edge?

We claim to be cutting edge, and here's why. We are innovative and pioneers in our industry. We are bringing you the absolute latest technologies in video production, like our Wedding Highlight Video E-Mail™.

Just a few years ago we were one of approximately five production companies in the world that offered a DVD Wedding Invitation. Today DVD Wedding Invitations are becoming more common, yet we are still the only one we know of that offers an accompanying written invitation.

Not only have we found innovative ways of announcing your wedding day, or sharing the day with family and friends around the world, but we take great pride in our films, with an emphasis on details. We have an unabrasive, unobtrusive shooting style. You are the focus of attention, not us.
